Response to Arguments

Applicant's arguments filed August 14, 2006 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made under 35 U.S.C. 101.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 18-27 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Independent claim 18 recites a machine-readable medium having machine executable instructions. The instructions are non-functional descriptive material because they can be stored on paper as is known in the art, and do not define a "data structure" as defined by IEEE (MPEP 2106.01). Examiner suggests changing "machine" to --computer-- throughout claims 18-27.

Allowable Subject Matter

Claims 1-17 are allowed.
